To Whom It May Concern:

This letter is in reference to Garrett Reed, a senior and current student of mine at Shepherd High School.

I was able to first have Garrett as a student in my Business Technology class when he was a sophomore. Earlier this year I had him in Financial Planning, and I currently have him acting as a mentor for younger students in a Business Technology class. Academically, he is a great student to have because he has near perfect attendance, excellent work ethic, and is very helpful to those around him. He is very personable, easy to get along with, and has a good sense of humor. I believe these qualities have enabled Garrett to be a successful leader of his class and the rest of the student body by serving as the Student Council Secretary and formerly as a Student Council Representative. In addition to Student Council, Garrett is a member of the bowling team, Business Professionals of America, and serves as a technician in the school's auditorium.

I have no doubt that Garrett will be successful in his plans to pursue a degree in Computer Gaming and Simulation at Davenport University in the fall. Please feel free to contact me at (989) 828-6601 to speak on his behalf. I would be more than happy to provide you with the information you need.

Sincerely,

Lisa Antcliff
Business Education Teacher
